Flood Flooring Ltd
Hilltown
Oldcastle
Co Meath
Ireland

To whom it may concern

Dear Sirs,

RE: Woodchurch High School, Wirral

It is with great pleasure that I submit this reference for Flood Flooring Ltd for the excellent work they carried out at Woodchurch High School.

Flood became involved in the scheme during the ITT Phase, providing the design solution of pre-cast concrete wideslab flooring, we also viewed sample projects at this time. Throughout the preferred bidder period Flood attended Co-ordination Meetings with our designers and our structure steel contractor, refined the design and price. The design philosophy behind this building was to utilise the exposed concrete for thermal mass to achieve heat sink and comfort cooling.

In April 2009 we formally appointed Flood to design, manufacture, delivery and install 7500 sq m of flooring with 9 concrete stairs. On 29 June 2009 our first units arrived on site as our programme, the contract was managed and the units fitted in a first rate manner, health and safety was excellent and the lifting plans were executed to the letter.

The aftercare and customer service was ready available for builders work issues that arose, and advising on the temporary propping arrangements during structural topping.

I would have no reservations in recommending Flood, for their professional approach to achieving a first class installation.

Yours faithfully
KIER NORTHERN
