To whom it may concern

Dear Sirs,

**RE: Tudor Grange Academy, Worcester**

Flood Flooring Ltd have been appointed at Tudor Grange Academy to design & supply wide span precast concrete floor planks & precast concrete stairs with installation being undertaken under a separate sub-contract by our structural steelwork contractor.

We are now nearing completion of this element of the works & throughout the whole process Flood Flooring have been extremely proactive & helpful giving an excellent level of service. Agreed programme dates have always been met both for design & delivery of the planks & stairs in what has often been extremely tight timescales. At no time has this had any detrimental effect on quality with this having always been maintained at a very high level. On the rare occasion when issues have arisen they have reacted extremely quickly & dealt with any problems in a professional & efficient manner. In particular their design manager, Martin Darby has been instrumental in ensuring the smooth running of this package of works giving an outstanding level of personalised service, supervision & coordination.

We look forward to having the opportunity to work with Flood Flooring Ltd on future projects.

Yours faithfully

Chris Lane  
Senior Project Manager
